

Project info

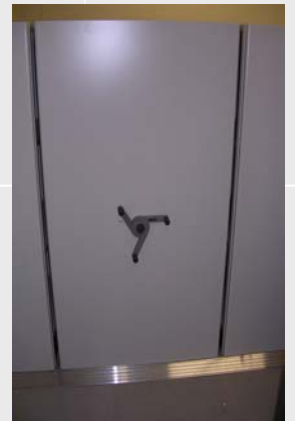

Avon Fire & Rescue Service

Project: Avon Fire & Rescue Service, Bristol
Sector: Local Government - Services
Product: Compactus Archive
Storage of: Fire & Rescue Service Apparatus & Clothing
Installation date: 2006
Completed by: Dexion South West, Bristol

Avon Fire & Rescue Service in Bristol has been a long standing customer of Dexion products. Their storage requirements were met with a Dexion Impex and Dexion Slotted Angle 2-Tier Shelving system that has served them well for over 30 years.

Avon Fire & Rescue Service contacted their local distributor, Dexion South West, for advice and assistance in updating their current storage equipment

Dexion South West advised the client to use a Compactus Archive mobile shelving system in place of the shelving 2-tier.
